SUBJECT: CMI-Tech Center Inc, 1600 West 8 Mile Road, Ferndale, Oakland County,
Facility Number 00006304

We have received a request to close site evaluations following tank removal at the referenced facility. This site is a closed LUST facility, C-0185-96, the release was closed under Type-I, Residential not-restricted.

The submitted analytical data with the site assessment report indicates levels greater than MDL. This is a request for closure under ~~IM-10~~ scenerio 3 and cancellation of a suspect release, S-0178-08. Therefore, I need to know if the indicated levels with this report are less than what was indicated with the LUST site closure; to allow for clean closure under IM-10. A copy of the site assessment report is being sent for you to review.

Let me know, at your earliest convenience, if you concur with granting a clean closure for this site evaluation, and canceling the suspect release, or if you believe a new release should be generated.

Thank you for your attention to this matter.
